CDOP Responsibilities

• To collect and collate information about each child death, seeking relevant information from professionals and, where appropriate, family members;
• To analyse the information obtained, including the report from the CDRM, in order to confirm or clarify the cause of death, to determine any contributory factors, and to identify learning arising from the child death review process that may prevent future child deaths;
• To make recommendations to all relevant organisations where actions have been identified which may prevent future child deaths or promote the health, safety and wellbeing of children;
• To notify the Child Safeguarding Practice Review Panel and local Safeguarding Partners when it suspects that a child may have been abused or neglected;

Operational Responsibilities

- Hold meetings at intervals to enable the death of each child to be discussed in a timely manner. Meetings will be held six-monthly.

Such arrangements allow appropriate professional experts to be present at the panel to inform discussions, and/or allow easier identification of themes when the number of deaths from a particular cause is small.
- Ensure that effective Joint Agency Response arrangements are in place, to enable key professionals to come together to undertake enquiries into and evaluating each unexpected death of a child.
- Review the appropriateness of agency responses to each death of a child.
- Review relevant environmental, social, health and cultural aspects of each death, to ensure a thorough consideration of how such deaths might be prevented in the future.
- Determine whether each death had modifiable factors.
- Make appropriate recommendations to the Local Health and Wellbeing Boards and Local Safeguarding Partnerships, in order that prompt action can be taken to prevent future such deaths where possible.

Governance and Accountability

- The Child Death Review Panel is accountable to the Child Death Review (CDR) Partners (above) through a Memorandum of Understanding
- A concise summary of the key points from each meeting will be provided to the Health and Wellbeing Boards and other strategic partnerships including the local Safeguarding Children’s and Community Safety Partnerships, where relevant.
- The Child Death Review Panel will provide a report to the Child Death Review (CDR) Partners (above), summarising any recommendations from the reviews of child deaths.
