Reason for completing assessment

What are the current concerns that have led to the assessment being completed?	Sarah and Jim are struggling to manage Emily's behaviour at home. They feel that all their time is taken up with Emily and they have been unable to support Billy and they are now concerned who he is hanging around with after school and weekends. Parents are concerned that Billy maybe drinking and smoking 'wacky backy'.
What does the child(ren) feel they need support with?	Emily wants to be better behaved and does not understand why she is struggling at home. Billy feels he is ok, and everyone should back off and let him be.
Has there been any historical Children Social Care or Early Help Involvement?	Yes
Please explain what historical involvement there has been, dates if known, what the concerns were and impact of support.	No previous CSC. There has been a period of early help support offered a number of years ago by the children centre.
What support has already been offered/tried to address the current/presenting issues?	Discussion with Emily and parents. Support to Emily in school.
